Garmin GPS 175

Garmin GPS 275 ADHRS/PFD

Garmin GPS 275 HSI

Garmin GTX Txpndr w/ ADS-B out

Garmin GMU 11 Heading Sensor

Garmin GA-35 WAAS Antenna

Vacuum system no longer needed due to GMU 11. Replaced OEM rotating beacon with Whelen LED beacon. Replaced OEM landing lights with WAT LEDs, very bright.

This is a very stable and solid airplane. It is an excellent IFR training platform and great cross-country aircraft. Great for building time, or taking trips. Complete logs, available on request. No damage history. Reason for selling is mission has changed and looking for smaller 2 place aircraft
